

⊕ Circles From Squares—Decals

Above: Projects made with Fusible Decal Paper (7079) and pre-printed Milestone Decals (8596, 8697, 8698), shown with unfired and fired decals.

1

Follow the directions in **Quick Tip: Circles from Squares**, but scale up by cutting sheet glass cut into 1" squares. You can substitute two pieces of 3mm sheet glass for a single 6mm piece.

2

Stack, space at least 1" apart and fire. The finished diameter of these pieces is around 1.75".

3

Apply decal imagery, then fire!

SUPPLIES
