SPECIAL RODS INVENTORY

February 28, 2007

Rods that are experimental, special production, etc.

CODE	STYLE NAME	DESCRIPTION	APPX. LBS IN STOCK
001001	Antique White	Light cream opalescent. Highly reactive to copper, lead and silver.	110
001321	NEW Carnelian	Deepest transparent brown-red, the same formula as Carnelian (001321) sheet glass.	150
002002	NEW Crème Brûlée II	A new flavorful blend of an old favorite. This run contains a blend of Nougat (000127) and Medium Amber (001137), producing a range of caramel hues with light streakiness. Expect variations.	70
001138	Dark Amber	Darker version of Medium Amber (001137).	55
000224	Deep Red	This style deepens with heatwork, resulting in a dark crimson. Opalescent. See the sheet glass version on page 8 of Bullseye Catalog 4.	65
002002	NEW Deschutes Blue	Named after an Oregon river; Turquoise Blue (001116), White (000113), and Light Cyan (000216) flow together with a splash of mossy transparent green. Expect variations. (Pronounced deh-SHOOTS)	70
001001	Fudgesicle	Dark translucent brown.	130
000304	Lavender	A muted blue-lavender opalescent. This color is reminiscent of classic, powdery-purple pastel wafer candies. Similar in color to previously released Gonzo Grape.	50
001002	Light Pink Sapphirine	Lighter shade of pink than Light Pink Striker (001215), with a brownish surface color.	110
001416	Light Turquoise Blue	Transparent, less saturated version of Turquoise Blue (001116).	115
000138	Marzipan	Pale almond opalescent. A slightly translucent, nonreactive neutral.	180
001001	Moody Mauve	Similar to Dusty Lilac (000303) with property of Translucent White (000243) (see TorchTips on the Bullseye Website).	20
001001	Orange Lollipop	Transparent orange striker with an opalescent orange streak. Saturated with color once completely struck.	90
001001	Pale Plum	Less saturated version of Light Plum (001405).	80
001001	Periwinkle	Pastel blue violet, opalescent	155

Rods subject to variation. Current and future quantities not guaranteed.

SPECIAL RODS INVENTORY

February 28, 2007

Rods that are experimental, special production, etc.

CODE	STYLE NAME	DESCRIPTION	APPX. LBS IN STOCK
000225	Pimento Red	This tasty shade of opalescent orange is a shade darker than our standard Orange (000125). See the sheet glass version on page 8 of Bullseye Catalog 4 but note that the struck rod color is a little lighter.	40
1002	Purpicious	Medium purple (more pink than blue). Think sweet grape-flavored bubble gum. Some color variation in the run. May mottle when worked hot. Opalescent.	140
002002	NEW Sea Breeze	Fresh opalescent greens and blues streaked through a clear base. Olive Green (000212), Turquoise Blue (001116) and transparent Steel Blue (001406) are a sampling of the colors included in this blend. Expect variations in both color and opacity.	190
001001	Sterling Gray	This pastel, opalescent gray is a lighter version of Deco Gray (000136).	120
