## New Colors & Styles

# Sheet Glass

It's what we're famous for.

## Single Color

A peerless palette of complementary hues in an overflowing array of tried-and-true styles.

**Peacock Blue**

**Peacock Blue, White**  
002176-0030

**Warm White, Light Amber**  
002237-0030

## Clear Seedy

A clear glass boasting an abundance of small “seedy” bubbles. Beloved in traditional stained glass and full of potential for creating depth and complexity in fused glass work.

**Clear Seedy, fused**

**Granite Herringbone Ripple Irid**  
000100-HR71 & 001101-HR71

## Line-cast Fracture Streamers

To make it, our casters roll, pull, and fling molten glass. The process is quite a sight—like a mix between fly fishing and curling! The energy and movement in the resulting glass is a real spectacle and reflects the creative dance that went into making it.
